

IBEW LOCAL 77 INTEROFFICE MEMO

DATE: January 10, 2008

TO: Staff
Executive Board
Examining Board
Accident Investigators

FROM: Bill Meyer, Accident Investigator Chairman

W7 Meyer

RE: February Executive Board Meeting

Yesterday, January 9, 2008, there was an accident with a Potelco Foreman and a Puget Sound Energy Utility Wireman inside the Prine Substation in the Olympia area. The Potelco Foreman received serious flash burns to the face and hand, and is being treated at Harborview Medical Center. The Puget Sound Energy Utility Wireman suffered flash burns to the face and eyes. The Utility Wireman was treated at a local hospital and released later to go home. The Potelco Foreman is a member of Local 483 and the Utility Wireman is our member. IBEW Local 77 will conduct a full investigation and will provide a report as soon as possible.

Thank you.
