Job Description

To install, rebuild, repair and maintain a wide variety of electrical equipment essential to the generation, transmission and distribution of electrical power. This position is the highest of a multi-step progression from Apprentice Electrical-1 to Journeyman Electrical and is expected to know all aspects of Journeyman Electrical for the Company. Lower steps in this classification are expected to progress into all aspects of these duties.

Requirements

Requires Journeyman Electrical experience installing and repairing a variety of electrical equipment in generating stations or substations, and a complete working knowledge of safety rules. Have proficiency in basic math skills. Requires a valid driver's license and must be able to obtain CDL license within 90 days. Requires first aid card and CPR competency. Must pass Company forklift operator's program. Backhoe operation experience desired. Other combinations of education/ experience may be considered.

To Apply

Complete an online application and attach your resume and current supervisor's evaluation to your profile. **All documents must be attached to your application at the time of submitting your application for review.** No documents can be attached after you click "Submit".

Pre-employment screening requirements

This position is considered safety-sensitive under the Department of Transportation regulations 49 CFR Part 40 and may be subject to pre-employment drug and/or alcohol testing as well as other testing and training requirements as mandated by federal law.
