

WASHINGTON'S **70TH** ANNUAL

Governor's Industrial Safety and Health Conference

Spokane Convention Center | Sept. 29-30, 2021

Dear Rex,

Due to the increasing COVID-19 case rates from the Delta variant and restrictions on attendance being imposed by many organizations, we have made the decision to transition the 2021 70th Annual Governor's Industrial Safety and Health Conference to a virtual event. While we are extremely disappointed that we can't meet in person again this year our priority continues to be the health and safety of our attendees, exhibitors, staff, and volunteers.

The virtual format this year will be:

- Live sessions spread over 4 weeks to be able to work into your schedule.
- Flat fee of \$175 for attendance at live sessions plus access to all recorded sessions.

Details of the new schedule and speakers will be worked out over the next several weeks. At that time you will have two options:

- Keep your registration and attend this year's virtual Conference, with the difference in cost refundable.
- Cancelling your registration for a full refund.

In the meantime, if you have made travel and hotel arrangements to travel to Spokane, please cancel them.

We plan to have the updated schedule and options ready for you by September 8. We will notify you at that time on how to proceed.
